Latest X-Country race Graeme Le Maistre, race report - results above.

Tuesday, December 9, 2008 20:11:

A training week-end is being arranged by Sarah Corcoran in early 2009. Coaches from the UK are being brought over, these being Martin and Liz Yelling, who run a company called 'Full Potential'.

For more information on this please [click here](#). It should prove to be a very good weekend, please support this venture!

Information regarding the Hampshire Championships in Jan - above - more from Paul....

'Enclosed is a copy of details (above) of the Hampshire Cross Country Championships taking place on 10th January, a great group of juniors going though we are a bit light on seniors at the moment to put it mildly! Anyway I enclose all the details in case any seniors would like to go as they will be very welcome to come along. At this stage though people will need to make their own flight arrangements, with the exception that I have one flight booking going spare which it's too late to cancel now, the flight details as per enclosed. If anyone wants the flight please let me know the cost will be for £100 and include cost of coach to Dibden if required, though not accommodation on Friday night.

The deadline for entries is 15th December, so if any seniors want to attend I'd be happy to send in their entry but I need to know by say this Friday 12th latest.

UK Inter Counties Championships - Nottingham

Le Rocquier School's Danielle Leerson continued her outstanding form to win a team gold medal for Hampshire in the UK inter-counties cross country championships and world trials.

Just a week after finishing a brilliant 16th, out of 335 runners, in the English Schools championship in Liverpool, Leerson (far right in the picture) placed eighth out of 300 runners in the under-13 girls' race to be a major contributor in bringing home gold for Hampshire.

Six Jersey athletes represented the County at Woolaton Park in Nottingham, the elite event including the World cross country trials with many internationals taking part. The full series of races were televised by Sky television with several of the Jersey athletes featuring.

Felicity Johnson-Deeley, of the Jersey College for Girls, ran in the under-15 girls' race where confusion reigned when an obvious false start was not called back resulting in many teams hesitating coming out of their start pens.

Deeley, and her team-mates, had a bad start but from near to the back of field she clawed her way back to finish 57th out of 274 starters.

Oliver Terry, in his first major championship, performed excellently to placed 122 out of 298 in the U13 boys.

Toby Edwards was 92nd out of 195 in the U20s while U15 boys Elliott Dorey and Wade Le Marquand placed 94th and 136th respectively.
